

## Product information

REV2015203

# Stuffing-Box-Packing Type 2048

## Material composition

Diagonally braided from graphited Aramid staple fibre, impregnated with an inert lubricant.

Please note: the colour of the actual product might vary from the image on this data-sheet.

## Properties

Very strong and durable packing, the added graphite improves the heat dissipating properties compared to conventional Aramid packings.

## Application areas

Can be used for dynamic and static applications like rotary and plunger pumps, valves, stirrers and mixers etc., by many different industries.

## Application media

Suitable for water, sewage, mild acids and caustics, chemicals, abrasive media like slurries and brine.

## Not suitable for

Concentrated acids and lyes, alkali metals, oxygen.

## Benefits

Economical multi purpose packing.

### Temperature:

	- temp	+ temp
(°C)	100	280

### Pressure:

	rotating:	reciprocating:	static:
(bar)	20	80	150

pH: 2-12      density: 1,2      v: (m/s) 20

Since all properties, specifications and application parameters shown throughout this catalogue are approximate and may be mutually influenced, your specific application should not be undertaken without independent study and evaluation for suitability. All technical data and advice given is based on experiences TEADIT® has made so far. Failure to select proper sealing products can result in damage and/or personal injury. Properties, specifications and application parameters are subject to change without notice. TEADIT® does not undertake any liability of any kind whatsoever. Please note: the colour of the actual product might vary from the above image on this data-sheet.
